

HT 60 Clear Panel Series

Full Height Turnstiles Interior and Exterior Application

HT 60

Full Security with a Modern Open Look

The HT 60 is a three vane turnstile using 6005-T6 anodized aluminum extrusions for structural support. The HT 60 offers a canopy and GE's transparent Lexan® arms for a more modern, open look. Added weather resistant finish makes these turnstiles perfect for both indoor and outdoor use.

Dollar for dollar, Hayward Turnstiles are simply the best turnstile value in the access control industry.

We have engineered our turnstile products line with your needs in mind: Performance, aesthetics, reliability, and ease of maintenance.

In addition to turnstile and crowd control products, we offer design assistance for new installations, as well as custom fabricated devices.

Hayward Turnstiles provides access control systems regionally, nationally, and worldwide.

Contact us for more information about the new generation of turnstiles offered by Hayward Turnstiles.

Available as a Metal-Detect Door where higher security is necessary. Metal detection and bullet-resistant panels are available in varying performance specs based on your application

HT 60 Clear Panel Series

Full Height Turnstiles Interior and Exterior Application

HT 60

Applications:

The HT 60 is crafted of 6005-T6 high strength aluminum extrusion and features GE's transparent Lexan® polycarbonate panels and arms for an un-caged feel and open appearance. The automatic "Feather-touch" action creates a smooth flow and includes shock suppression and non-entrapment design. This turnstile is perfect for applications requiring security as well as aesthetic appeal.

Product Features:

- Materials and finishes available in your choice of: *Clear, Dark Bronze or Black Anodize*
- Uses transparent polycarbonate arms for a modern un-caged appearance and feel
- Performance features include automatic indent *Feather – Touch* action that includes shock suppressor technology and a non-entrapment design

Design & Construction:

- Designed for secure operation with aesthetics in mind
- Features minimal exposed hardware and meets ASTM standards

Controller &

Access Control Operation:

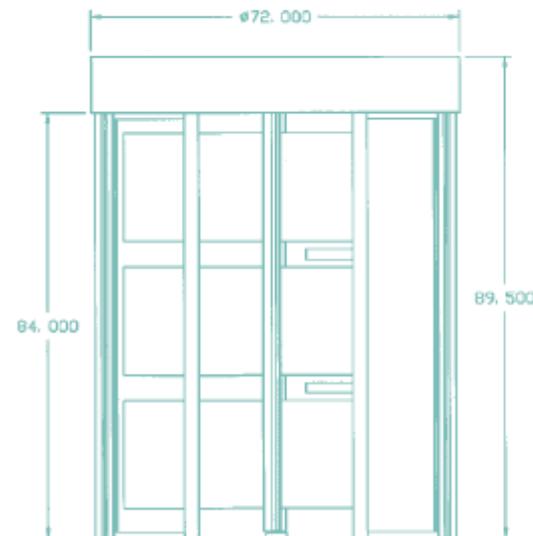

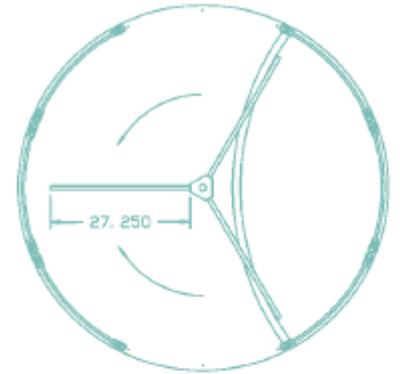

- Self centering control head with adjustable hydraulic shock suppression
- Hardened tool steel locking bars, cam & roller assemblies
- Permanently lubricated bearings
- Available in clockwise, counter-clockwise or bi-directional passage

Dimensions:

- Exterior Height: 94" to 102" Available
- Width: 72"
- Pedestrian Clearance: 30"
- Arm Dimensions: 3/4" x 21" x 28"

Options:

- Electronic locking module featuring heavy duty 24 VDC solenoids and card reader interface
- Available as Fail-Safe (free passage on power failure) or Fail-Lock (locked passage on power failure)
- Can interface with card readers, computer attendance systems, coin or token acceptors, push buttons, wireless remote controls and metal detectors
- Electronic 6 digit resettable counter with LCD display
- Vertical Graphic Array (VGA) showing red "x" / green arrow
- Additional options available on request

Electrical Specifications:

- Command Module input 110-240 VAC (2amp-1amp) 50-60 Hz stepped down to a safe 24 VDC output (UL recognized and CSA certified)

Warranty:

- Units are warranted against defects in materials and workmanship for a period of one year from date of delivery. See warranty information for specific details
